Offer an additional service at your station and stand out from the competition

With its backlit lockers in the color of your choice, highlight professional washing products and more!

In this SR version, the lockers offer a space of 20 cm in depth, 20 cm in width, and 28 cm in height.

Thanks to its portrait-format lockers, you can offer sprays, perfumes, wipes, windshield washer fluid cans, unique or multiple products – it's up to you!

Interface and payment methods

✓ CK LOCKER SR – Autonomous 22 lockers

In its autonomous version, the customer makes their selection directly on the **CK Locker SR** via a simple interface, choosing between :

- a numeric stainless steel keypad
- a color touch screen

Equipped with a contactless payment terminal, the customer first selects their product and then proceeds to payment.

Barcode reader and loyalty reader options can be added.

✓ CK LOCKER SR – Controllable 23 lockers

The Locker SR is available in a version controlled by the token dispenser.

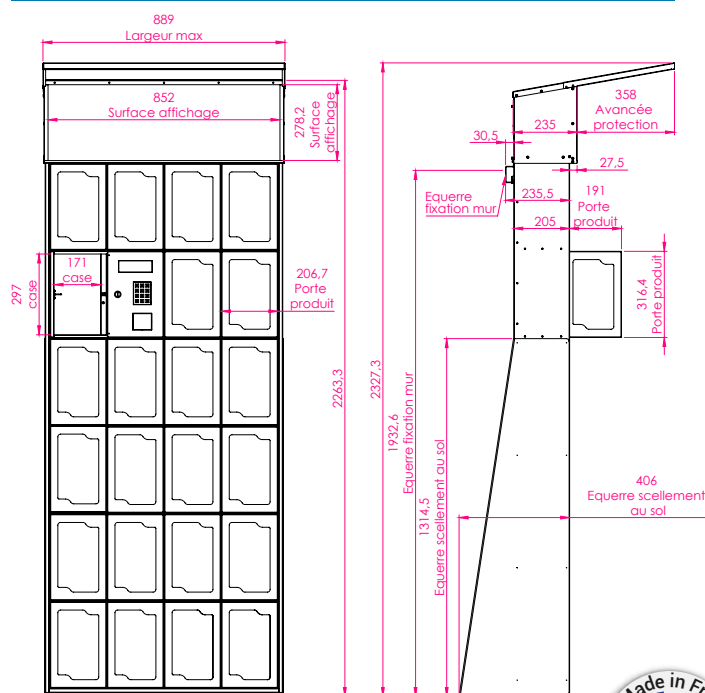

In its slave version, the payment interface is located on the touch token dispenser!

Thus, you can take advantage of all possible payment methods.

i Need more lockers?

*In either case, it is possible to connect several **CK Locker SR** to your installation!*

i The transparent and backlit lockers give visibility to your store and allow the product to be seen, which promotes sales. A definite advantage! The doors are reinforced with ultra-resistant polycarbonate.
